Standard(s) indicated on this Certificate.

**Standard(s) for Safety:** UL 8750, LED equipment for lighting products  
UL 1310, Class 2 power units  
CAN/CSA C22.2 No. 250.13-14, LED equipment for lighting  
applications

**Additional Information:** See the UL Online Certifications Directory at  
[www.ul.com/database](http://www.ul.com/database) for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's  
Certification and Follow-Up Service.

Recognized components are incomplete in certain constructional features or restricted in performance  
capabilities and are intended for use as components of complete equipment submitted for investigation rather  
than for direct separate installation in the field. The final acceptance of the component is dependent upon its  
installation and use in complete equipment submitted to UL LLC.

Look for the UL Certification Mark on the product.

This is to certify that representative samples of the product as specified on this certificate were tested according  
to the current UL requirements.

Bruce Mahrenholz, Director North American Certification Program  
UL LLC
